June 24, 2019

Dr. Neeraj Suri
Associate Professor
Department of ENT
Gandhinagar Civil

Dear Dr. Suri,

On behalf of the Department of Otolaryngology—Head and Neck Surgery, I would like to extend an invitation for you to join us as an observer for the period of July 19, 2019 through October 3, 2019.

This invitation is made with the understanding that you will support yourself financially during your stay at Stanford and with the understanding that you will need to provide acceptable proof of immunizations and health status before you will be allowed access to clinics and operating rooms. You are also required to read and sign a number of documents prior to your observership.

During your observership you will have the opportunity to observe in the outpatient clinical setting as well as in the operating room, but you will not be able to engage in actual patient care or patient contact. You will also be able to participate fully in all of the department's many education programs.

We look forward to your arrival. If you have any questions, I can be reached at 1-650-862-2197 or at cet02@stanford.edu.

Sincerely,

Carolyn Taylor
Administrative Associate for Division of Neurotology
Department of Otolaryngology-Head and Neck Surgery
Stanford University School of Medicine
